Domain Type: morphosyntactic phonological indeterminate
noninterruption complex
ciscategorial selection broad maximal
segmental consonant assimilation maximal palatalization without k'/y-
segmental consonant assimilation maximal palatalization with k'/y-
noninterruption simplex rem past free
noninterruption simplex rem past not free
ciscategorial selection narrow maximal
suprasegmental accent minimal construction 2
segmental consonant insertion minimal insertion of /y/, fractured according to analysis "maximal"
segmental consonant insertion minimal insertion of /y/
deviations suppletion inflectional class
