
Domain Type:
morphosyntactic
phonological
indeterminate
free occurrence maximal
deviations allomorphy progressive marking
recursion based syndetic minimal nako? linker
recursion based asyndetic minimal
free occurrence minimal
deviations allomorphy person marking
suprasegmental accent maximal
segmental vowel assimilation maximal vocalic epenthesis
segmental consonant assimilation maximal palatalization
segmental consonant assimilation regressive
segmental consonant assimilation second person
segmental consonant assimilation minimal palatalization
segmental consonant assimilation verb conditioned variability
suprasegmental accent minimal
segmental vowel insertion minimal vocalic epenthesis
recursion based asyndetic maximal first second person p
nonpermutability rigid
noninterruption simplex
recursion based syndetic maximal kan and then
recursion based asyndetic maximal third person p
nonpermutability rigid verb conditioned variability
ciscategorial selection
