Domain Type:
morphosyntactic
phonological
indeterminate
suprasegmental accent maximal construction 2
segmental consonant insertion maximal glottal insertion vowel coalescence construction 1
suprasegmental accent maximal construction 1
segmental consonant insertion minimal glottal insertion vowel coalescence construction 1
suprasegmental accent minimal construction 1
segmental consonant insertion minimal glottal insertion vowel coalescence construction 2
noninterruption complex
recursion based asyndetic minimal coordination conjunct
free occurrence minimal conjunct
deviations allomorphy minimal seperable root nasal deletion vowel coalescence
noninterruption multipositional noun stem
ciscategorial selection minimal
segmental minimality maximal size
segmental minimality minimal size
recursion based secondary derivation
recursion based inseperable roots
